

OWN A PIECE OF THE ARC OF DREAMS!

About The Sculptures

As artist Dale Lamphere created the Arc of Dreams, he saved the elements that were trimmed off in the process. Dale has turned these trimmings into individual works of art. Each sculpture was handcrafted and signed by the artist. Each sculpture is unique, numbered and includes authentication. Only 200 sculptures were created. Materials in the sculptures include handground stainless steel, titanium nitride and mounted on local Jasper quartzite.

About the Artist

Dale Claude Lamphere is the Artist Laureate of South Dakota. He has created over 60 public monumental sculptures across America including the Arc of Dreams, and Dignity of Earth and Sky.

Lamphere has always drawn inspiration from the land and people of the prairie and mountain environment where he lives. Innovative use of new materials and technologies are often incorporated in his evocative and elegant sculptures.
